Cleaning the Streets.

The Board of Public Works has gange of men at work all over the city examing up and carting away the mud and flith from the streets and alleys that has been accumulating all winter. In many localities this kind of work is badly needed, and it cannot be done too thoroughly. It would not be a bad idea to use a strong plug stream in many of the paved alleys and wash them out, as in many instances the paving is so rough that the scraper does not make a clean job of it. The city cannot be quit into good a sanitary condition, and the citizens should aid in the work by cleaning up their own premises.

QUITE TIME TO CALL A HALT County Commissioners-About \$30,000 Recommended for Boads and Bridges

A prominent business man, somewhat familiar with the affairs of the Poard of Commissioners, and their manner of doing business, last evening called the attention of an Intelligences reporter to the report of the Finance Committee of the Board, which will be submitted to the Commis sioners at the adjourned meeting to-day. This report struck the reporter as on This report struck the reporter as one which should be regarded with unusual interest by the taxpayers of the county. This Committee, the reporter's informant said, recommends a general appropriation for road and bridge purposes of \$16,000. In addition to this a \$5,000 appropriation is recommended for a bridge over the first fork of the creek, at Loring's lane. About three hundred vards above is another

fork of the creek, at Loring's lane. About three hundred yards above is another trossing which will require another \$5,000 bridge at an early day.

For the contingent road and bridge fund the Committee estimates that the sum of \$2,000 will be required, and to all this should be added about \$7,000, which it will be necessary to raise by local levy; in all making nearly or quite \$30,000 for road and bridge expenses for 1885.

This the gentleman quoted declares means a levy of from 70 to 75 cents, which must be laid this year, as against a 55-cent levy last year—an increase of nearly 50 percent.
